MC3700 General Purpose Crystal Polystyrene

SECTION 1: Product And Company Identification

1.1. Product Identifier

Product Name: MC3700 General Purpose Crystal Polystyrene

Product Form: Pellets.

1.2. Relevant Use

Recommended Use: A polystyrene plastic - For industrial conversion as a raw material for manufacture of articles or goods. We recommend that you use this product in a manner consistent with the listed use. If your intended use is not consistent with the stated use, please contact your sales or technical service representative.

1.3. Supplier Information

Americas Styrenics LLC
Suite 1200
24 Waterway Avenue
The Woodlands, TX 77380
USA

Telephone: 844-512-1212

Email: productsteward@amsty.com

1.4. Emergency Telephone

Chemtrec®: 800-424-9300

Local Emergency Contact: 800-510-8510

SECTION 2: Hazard Identification

2.1. GHS Classification

GHS Classification

This product is not a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.

2.2. GHS Label Elements

GHS-US Labelling

No labelling required

2.3. Other Hazards

Eye Contact: Solid or dust may cause irritation or corneal injury due to mechanical...
Skin Contact: Under normal processing conditions, material is heated to elevated temperatures; contact with the material may cause thermal burns.

Inhalation: Dust may cause irritation to upper respiratory tract (nose and throat). Vapors/fumes released during thermal processing may cause respiratory irritation.

Ingestion: May cause choking if swallowed.

2.4. Additional Physical Information

If converted to small particles during further processing, handling, or by other means, may form combustible dust concentration in air.

SECTION 3: Composition / Information On Ingredients

3.1. Substance

Not Applicable

3.2. Mixture

Section 4: First Aid Measures

4.1. Description of Preventative and First Aid Measures

Eye Contact: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

Skin Contact: If molten material comes in contact with the skin, do not apply ice but cool under ice water or running stream of water. DO NOT attempt to remove the material from skin. Removal could result in severe tissue damage.

Inhalation: IF INHALED: Remove Person to fresh air and keep at rest in a position comfortable for breathing.

Ingestion: IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.

4.2. Important Symptoms and Effects

Eye Contact: No Additional Information.

Skin Contact: No Additional Information.

Inhalation: No Additional Information.
Ingestion

4.3. Immediate Medical Attention and Special Treatment

Notes to Physician: If burn is present, treat as any thermal burn, after decontamination. No specific antidote. Treatment of exposure should be directed at the control of symptoms and the clinical condition of the patient.

Section 5: Fire-Fighting Measures

5.1. Extinguishing Media

Extinguishing Media

In case of fire: Use water spray for extinction. Use dry chemical powder for extinction. Use carbon dioxide for extinction. Use foam for extinction.

Unsuitable Extinguishing Media

No Additional Information.

5.2. Specific Hazards

During a fire, smoke may contain the original material in addition to combustion products of varying composition which may be toxic and/or irritating. Combustion products may include and are not limited to: Carbon dioxide. Carbon monoxide.

5.3. Advice for Firefighters

Special Fire Fighting Procedures

No Additional Information.

Protective Equipment for Firefighters

Wear positive-pressure self-contained breathing apparatus (SCBA) and protective fire fighting clothing (includes fire fighting helmet, coat, trousers, boots, and gloves). If protective equipment is not available or not used, fight fire from a protected location or safe distance.

Unusual Fire & Explosion Hazards

Pneumatic conveying and other mechanical handling operations can generate combustible dust. To reduce the potential for dust explosions, do not permit dust to accumulate. Dense smoke is produced when product burns.

Section 6: Accidental Release Measures

6.1. Personal Precautions and Emergency Procedures

General Measures

Spilled material may cause a slipping Hazard

6.1.1 For Non-Emergency Personnel

Emergency Procedures

No Additional Information.

6.1.2 For Emergency Responders

Protective Equipment

Use personal protective equipment as required. Refer to Section 8, Exposure Controls.

Emergency Procedures

No Additional Information.

6.2. Environmental Precautions
6.3. Methods for Clean Up

Spill Cleanup Methods: Sweep up. Recover spilled material if possible. Collect in suitable and properly labeled containers. Refer to Section 13, Disposal Considerations.

6.4. Reference to Other Sections

Refer to Section 8, Exposure Controls.
Refer to Section 13, Disposal Considerations.

Section 7: Handling and Storage

7.1. Precautions for Safe Handling

Precautions for Safe Handling: Pneumatic conveying and other mechanical handling operations can generate combustible dust. To reduce the potential for dust explosions, do not permit dust to accumulate. Dense smoke is produced when product burns. Avoid breathing dust/fume/vapors. Workers should be protected from the possibility of contact with molten resin. Do not get molten material in eyes, on skin or clothing. Dust can be ignited by static discharge. Keep away from heat/sparks/open flames. No smoking.

Hygiene Measures: Refer to Section 8, Exposure Controls.

7.2. Conditions for Safe Storage

Technical Measures: Ground/bond container and receiving equipment. Take precautionary measures against static discharge.

Storage Conditions: Store in a well-ventilated place. Store in a dry place. Store in accordance with good manufacturing practices (GMP)

Incompatible Materials: No data available for this product.

Storage Area: Keep container tightly closed in a cool, well-ventilated place.

Special Packaging Rules: Store with proper labeling.

Section 8: Exposure Controls

8.1. Control Parameters

None Established

8.2. Exposure Controls

Appropriate Engineering Controls: No Additional Information.

Personal Protective Equipment (PPE): Protective Glasses, Protective Clothing, Gloves

Hand Protection: Consistent with general hygienic practice for any material, skin contact should be minimized. Use gloves with insulation for thermal protection,
when needed. Use gloves to protect from mechanical injury. Selection of gloves will depend on the task.

Eye Protection : Wear safety glasses with side shields. If there is potential for exposure to particles which could cause eye discomfort, wear chemical goggles. If exposure causes eye discomfort, use a full-face respirator.

Skin Protection : No precautions other than clean body-covering clothing should be needed.

Respiratory Protection : Respiratory protection should be worn when there is a potential to exceed the exposure limit requirements or guidelines.

Environmental Exposure Controls : Use local exhaust ventilation, or other engineering controls to maintain airborne levels below exposure limit requirements or guidelines. If there are no applicable exposure limit requirements or guidelines, general ventilation should be sufficient for most operations. Local exhaust ventilation may be necessary for some operations.

Other Information : Wash hands before smoking or eating

05/23/2016
Partition coefficient: n-octanol/water : No data available for this product.
Autoignition Temperature : No test data available
Decomposition Temperature : No data available.
Viscosity : Not applicable
Molecular Weight : No test data available
Henry's Law Constant (H) : No Additional Information.

Section 10 : Stability and Reactivity

10.1. Reactivity
None known.

10.2. Stability
Stable under recommended storage conditions. See Storage, Section 7.

10.3. Possibility of Hazardous Reactions
Hazardous polymerization will not occur

10.4. Conditions to Avoid
Store at temperatures not exceeding 300°C/572°F. Exposure to elevated temperatures can cause product to decompose

10.5. Incompatible Materials
None known.

10.6. Hazardous Decomposition Products
Decomposition products depend upon temperature, air supply and the presence of other materials. Processing may release fumes and other decomposition products. At temperatures exceeding melt temperatures, polymer fragments can be released. Fumes can be irritating. Decomposition products can include and are not limited to: Combustible gases.

Section 11 : Toxicological Information

11.1. Information on Toxicological Effects

Acute Toxicity

Ingestion : Single dose oral LD50 has not been determined.
Skin : Typical for this family of materials. Estimated LD50, Rabbit > 2,000 mg/kg
Inhalation : The LC50 has not been determined.
Serious Eye Damage/Eye Irritation

Solid or dust may cause irritation or corneal injury due to mechanical action. Elevated temperatures may generate vapor levels sufficient to cause eye irritation. Effects may include discomfort and redness.

Skin Corrosion/Irritation

Under normal processing conditions, material is heated to elevated temperatures; contact with the material may cause thermal burns.

Repeated Dose Toxicity

Additives are encapsulated in the product and are not expected to be released under normal processing conditions or foreseeable emergency.

Chronic Toxicity

Germ Cell Mutagenicity:

Genotoxicity in Vitro : No Additional Information.
Genotoxicity in Vivo : No Additional Information.

Carcinogenicity

No Additional Information.

Developmental Toxicity

No Additional Information.

Reproductive Toxicity

No Additional Information.

Target Organ Toxicity

Specific Target Organ Toxicity (Single Exposure) : No Additional Information.
Specific Target Organ Toxicity (Repeated Exposure) : No Additional Information.
Aspiration Hazard : No Additional Information.
Potential Adverse Human Health Effects : No Additional Information.
Symptoms/Injuries After Inhalation : No Additional Information.
Symptoms/Injuries After Skin Contact : No Additional Information.
Symptoms/Injuries After Eye Contact : No Additional Information.
Symptoms/Injuries After : No Additional Information.
Section 12 : Ecological Information

12.1. Toxicty

Data for Component: Styrene, polymers (9003-53-6)
Not expected to be acutely toxic to aquatic organisms.

Data for Component: White mineral oil (petroleum) (8042-47-5)
Material is practically non-toxic to aquatic organisms on an acute basis (LC50/EC50/EL50/LL50 >100 mg/L in the most sensitive species tested).

Fish Acute & Prolonged Toxicity
LC50, Lepomis macrochirus (Bluegill sunfish), static test, 96 h, > 10,000 mg/l
LL50, Oncorhynchus mykiss (rainbow trout), static test, 96 h, > 100 mg/l
LL50, Leuciscus idus (Golden orfe), static test, 96 h, > 10,000 mg/l

Aquatic Invertebrate Acute Toxicity
LL50, Daphnia magna (Water flea), static test, > 100 mg/l

12.2. Persistence and Degradability

Data for Component: Styrene, polymers(9003-53-6)
This water-insoluble polymeric solid is expected to be inert in the environment.

Data for Component: White mineral oil (petroleum)(8042-47-5)
Based on stringent OECD test guidelines, this material cannot be considered as readily biodegradable however, these results do not necessarily mean that the material is not biodegradable under environmental conditions.

OECD Biodegradation Tests:

<table>

</tbody>
</table>

Theoretical Oxygen Demand: 3.50 mg/g

12.3. Bioaccumulative Potential

Data for Component: White mineral oil (petroleum)(8042-47-5)
Bioconcentration potential is high (BCF > 3000 or Log Pow between 5 and 7).

Bioconcentration Factor (BCF): 1,900; Fish; Estimated.

12.4. Mobility

Henry's Law Constant (H): No Additional Information.

12.5. Other Adverse Effects

No Additional Information.

Section 13 : Disposal Considerations
MC3700 General Purpose Crystal Polystyrene
Safety Data Sheet

Sewage Disposal Recommendation: Do not empty into drains. Do not dump into sewers, on the ground, or into any body of water.

Waste Disposal Recommendation: Dispose of contents/container to an appropriate treatment and disposal facility in accordance with applicable laws and regulations, and product characteristics at time of disposal.

Additional Information: FOR UNUSED & UNCONTAMINATED PRODUCT, the preferred options include sending to a licensed, permitted: Recycler. Reclaimer. Incinerator or other thermal destruction device.

Ecology - waste materials: No Additional Information.

### Section 15: Regulatory Information

<table>
<thead>
<tr>
<th>15.1. US Federal Regulations</th>
<th></th>
</tr>
</thead>
</table>
Superfund Amendments and Reauthorization Act of 1986 Title III (Emergency Planning and Community Right-to-Know Act of 1986) Sections 311 and 312

Immediate (Acute) Health Hazard: No
Delayed (Chronic) Health Hazard: No
Fire Hazard: No
Reactive Hazard: No
Sudden Release of Pressure Hazard: No

15.2. International Regulations

Notification Status

Toxic Substances Control Act (TSCA): All components of this product are on the TSCA Inventory or are exempt from TSCA Inventory requirements under 40 CFR 720.30
CEPA - Domestic Substances List (DSL): All substances contained in this product are listed on the Canadian Domestic Substances List (DSL) or are not required to be listed.

Ozone Depleting Potential:
This substance is not in Annex I of Regulation (EC) No 1005/2009 on substances that deplete the ozone layer.

15.3. US State Regulations

California Proposition 65 (Safe Drinking Water and Toxic Enforcement Act of 1986) WARNING: This product contains a chemical(s) known to the State of California to cause cancer.

<table>
<thead>
<tr>
<th>Component</th>
<th>CAS #</th>

</tr>
</thead>
<tbody>
<tr>
<td>Ethylbenzene</td>
<td>100-41-4</td>
<td>&lt;= 150 PPM</td>
</tr>
<tr>
<td>Styrene</td>
<td>100-42-5</td>
<td>&lt;= 500 PPM</td>
</tr>
</tbody>
</table>

However, please note that there is inadequate evidence of ethylbenzene causing cancer in humans. Ethylbenzene has not been classified as a carcinogen by the International Agency for Research on Cancer (IARC), US Environmental Protection Agency (EPA) or the National Toxicology Program (NTP).

In March 2008, the Office of Environmental Health Hazard Assessment's (OEHHA) Proposition 65 Department proposed an NSRL of 54 μg/day (inhalation) for ethylbenzene.

In April 2016, the Office of Environmental Health Hazard Assessment's (OEHHA) Proposition 65 Department proposed an NSRL of 27 μg/day for styrene.

The objective of the warning statement above is to comply with the Prop 65 statute.

For guidance on Prop 65 labeling requirements for your products, please refer to the workbook published by the Plastics Foodservices Packaging Group available by calling the Customer Information number found on page 1 of this SDS.

Pennsylvania (Worker and Community Right-To-Know Act): Pennsylvania Hazardous Substances List and/or Pennsylvania Environmental Hazardous Substance List:
The following product components are cited in the Pennsylvania Hazardous Substance List and/or the Pennsylvania Environmental Substance List, and are present at levels which require reporting.
